RVM Featured in *Pensions & Investments* “Top-Performing Equity Managers”

San Antonio-May 6, 2009 --- Robinson Value Management (RVM) was featured in *Pensions & Investments* magazine's quarterly review of the best performing managers for the 12 months ended March 31, 2009. RVM's Market Opportunity Composite ranked 1st among U.S. Blend Stock managers and 3rd overall among U.S. Stock managers for its performance during that period in Morningstar's separate account/collective investment trust fund database. The U.S. Stock category is comprised of over 3000 managers.

*“The median overall equity manager had a return of -36.92% for the 12 months ended March 31; the Russell 3000 index returned -38.2% during the same period.” ... “In third place for the year, was the large-cap blend Robinson Market Opportunity Composite strategy from San Antonio-based **Robinson Value Management Ltd.** It had a one-year return of -0.27%. ‘The portfolio spent most of the quarter in cash,’ according to Charles Robinson, managing director at the firm and portfolio manager of the strategy.”*

- Pension & Investments, 5/4/09

“We serve our clients by sticking to a process that emphasizes risk reduction at least as much as return enhancement,” said Charles Robinson, CFA, Chief Investment Officer. “We have always defined risk as ‘the loss of capital’ or ‘a loss of purchasing power’ while the industry continues to define risk as ‘deviation from a benchmark.’ It is an approach that serves our clients well in difficult markets.

About Robinson Value Management (RVM)

RVM is an independent investment management firm, not affiliated with any parent organization. Founded in 1997, RVM is registered with the SEC and serves both individual and institutional clients. The name was changed to Robinson Value Management, Ltd. from Robinson & Wilkes, Ltd. on December 31, 2008.

The Market Opportunity Composite is described as all fee-paying, fully discretionary accounts participating in market timing through long and short positions in exchange traded funds, primarily Standard & Poor's Depositary Receipts (SPDR's), including the use of margin to establish short and leveraged long positions. Leverage is employed to obtain net exposures that range from as low as 40% short to as much as 140% long. Short positions and leveraged long positions involve considerable risk and are not suitable for many investors. Prior to 2005Q4, this composite was the Market Timing Equity Composite, a name change only. Prior to 2007Q2, this composite was the Market Opportunity with Margin Composite, a name change only.

RVM claims compliance with the Global Investment Performance Standards (GIPS®). RVM has been verified for the periods December 31, 1997 through December 31, 2008 by Dabney Investment Consulting Associates, Inc. A copy of the verification report is available upon request.

To receive a complete list and description of RVM's composites and/or a presentation that adheres to the GIPS standards, please call (210) 490-2545, email amy@robinsonvalue.com, go to our web site at robinsonvalue.com, or write to Robinson Value Management, Ltd., 14800 San Pedro Avenue, #114, San Antonio, Texas 78232. Past performance cannot guarantee comparable future results.

CIMA® is a registered certification mark of the Investment Managements Consultants Association, Inc.
