**Robinson Value Management, Ltd. Certified by the State of Texas as a
Historically Underutilized Business (HUB)**

San Antonio - June 5, 2010. Robinson Value Management, Ltd. (RVM) has successfully met the established requirements of the State of Texas Historically Underutilized Business (HUB) Program to be recognized as a HUB.

“As a woman-owned firm, we are pleased to be a part of the HUB program,” said Amy Abbey Robinson, CIMA, CEO of the value-oriented investment management firm. “Small, minority and woman-owned investment management firms often are overlooked by plan sponsors, typically facing minimum size requirement hurdles imposed by large plan sponsor searches. The HUB program expands RVM’s opportunities to provide investment management services to more organizations across the state, especially those that have implemented emerging manager programs intended to both enhance the return of the fund assets and assist emerging area investment management firms.”

About the Historically Underutilized Business (HUB) Program

The statewide HUB Program facilitates the use of HUBs in state procurement and provides information on the state’s procurement process to minority and woman-owned businesses. The Statewide HUB Program provides HUB certification for minority and woman-owned businesses whose principal place of business is in the State of Texas.
